

## Hitchin W offroad 30m

Distance : 30.8 miles

Height Gain : 1,093 ft

High Point : 561 ft

Low Point : 180 ft

### Route Description

---

This is a combination of the modified MBR Norton Green and the Telegraph Hill ? Pirton loop.

Localised for the Wymondley start/finish

Includes all the best descents in the area. Don't do this route in reverse unless you like long climbs and short boring descents!

Unfortunately does not include Chalk Hill although this could be included at either of the two points in the ride as a straight descent/climb back up or climb up/descent back down. The former would add less overall time to the route as you wouldn't go all the way to the crossing with the bridleway further on in the loop before climbing back up. Plus being earlier in the ride would be better from a tiredness and 'spread of elevation profile across the route' point of view Neither option would flow particularly well in this route as it would in other loops that don't cross the A505.

Takes approx xxx hrs non-stop in summer when trails are 90%+ dry (awaiting trial run! as of 11 April 2005)

### Start Point
