

XC POSTS WITH SIMON™ CLAMP

XC CARBON

Titec introduces Simon™, our new light-weight single-bolt seatpost clamp. Simon™ features the Titec exclusive Lock-Down™ no-slip clamp interface, which securely seats the clamp assembly to eliminate saddle rock. With a huge adjustment range of 48° to accommodate even the most relaxed seat tube angles, proprietary low profile to eliminate saddle flex interference and closely spaced teeth for maximum angle adjustment, Simon™ shines where other single-bolt designs don't. Your choice is simple – Simon™.

Material	Rollwrap Carbon Fiber Tubing
Length	390 mm
Clamp Offset	0.75"
Diameter	26.8, 27.2, 30.9, 31.6 mm
Weight	240 g
Color	Carbon with Titec Logos

Titec seatposts are engineered to provide optimal weight savings and strength. Coupling carbon, titanium, and premium aluminum with the new sleek single-bolt Simon™ clamp makes Titec XC posts ultra-lightweight. The industrial strength Hell-Bent® Post and Knock Post™ utilize the two-bolt Hawk™ clamp design and feature our exclusive Knock-Rated™ warranty. You can rest assured that every Titec post was built to last.
